

Remy Fund for Pets and Animal Services Funding Guidelines 2018

Birmingham businessman and philanthropist Ken Jackson honored the memory of his late dog Remy, a Jack Russell- Shih Tzu mix, by establishing the Remy Fund for Pets and Animal Services at the Community Foundation of Greater Birmingham

The Remy Fund for Pets and Animal Services is a special fund of the Community Foundation of Greater Birmingham (CFGB) that considers grant requests from organizations with a mission or specific programs that involve traditional companion animals (cats, dogs, and horses). Requests will be considered for general organizational support, although preference will be given to projects with clear goals and objectives. Capital projects will not be considered at this time. Areas of priority are:

- rescue/shelter programs for traditional companion animals
- spay/neuter programs
- animal-assisted therapy programs involving traditional companion animals
- education and advocacy programs (promoting the humane and dignified treatment of traditional companion animals)
- service dog programs

Grants will generally be made in the \$2,000 to \$20,000 range, and will be restricted to organizations classified as public charities under section 501(c)3 of the IRS code and based in, or serving, one or more of the following Alabama counties: Blount, Jefferson, Shelby, St. Clair, and Walker.

How to Apply:

The Remy Fund will conduct one grant cycle per year, with the process beginning in late spring and concluding by the end of summer.

Initial applications must be submitted **online**, and the online form will only be available from **Thursday, March 15, 2018 through Monday, April 30, 2018**. Organizations missing this window will have to wait until the next year to apply.

To access the registration/logon page for the CFGB online grantmaking system, enter the web address below into your browser:
